

Renee Kovacs

Golden Apple Award Winners

May 4th, 2022

*“I am nominating Mrs. Kovacs for the Golden Apple award because she is a very supportive teacher. She teaches in a way that always helps me understand. She makes everything fun and interesting. She would play game sot help us with our math facts. We did STEM challenges every Friday, that I always looked forward to. The team that won would get a prize form the prize box. We did a Flat Stanley project and every week we would check out where he was and what he was doing that day. Mrs. Kovacs would always be happy for us when we completed our work or did well on our tests. She would give us a pretzel when we got a question correct in Math. I was motivated to do my homework, because she would have a reward for us if we completed it. She set up a field trip to the Science Museum in Cleveland, OH. Mrs. Kovacs would join in the exhibits with us, we had a lot of fun. If we had trouble understanding our lesson, she would make a special effort to focus on you, to help you understand that lesson. She would always encourage me if I wasn’t confident about my work. Mrs. Kovacs is always in a bright mood and is always happy! When I had Mrs. Kovacs, I was happy to go to school. I was excited to do the games and activities was the best teacher I ever had.”*
